PROFILE

Engineering student at N7 (Toulouse INP-ENSEEIHT) in Computer Science and Telecommunications, interested in network architectures, cybersecurity and embedded systems. Seeking a 6-week internship in June 2027 to apply my knowledge and skills.

TECHNICAL SKILLS and SOFT SKILLS

Languages: Python, C, Java, ARM assembly, OCaml, SQL, Bash, Ada

Outils: Git, Linux, VS Code, Eclipse IDE, Logisim, Wireshark, Why3, Coq, Simulink, Matlab, Vim

Soft skills: Discipline, patience, adaptability, punctuality, stress management, teamwork, curiosity

PROJETS

Mini-Shell in C – Process Management

Tokenization and management of concurrent processes, foundations of network communication architectures.

Vinted Bot – Web Scraping & Automation (Python)

HTML page handling, network data flow analysis, request automation.

Design of an ARM processor (Logisim)

Understanding the hardware architecture of network and telecom equipment.

Red-Black Trees in C – Module Implementation

C implementation of a self-balancing binary search tree — data structures and memory management.

TCP/UDP Client/Server Application

Development in C of a distributed client/server application over TCP/IP using the POSIX sockets API. Implementation of iterative and concurrent (fork) servers and of a route-exchange protocol over UDP.

EXPERIENCE

IT Maintenance Intern

Clinitech PC — June 2026 – July 2026

Data recovery, diagnosis and repair of hardware, OS installation and configuration, software and network troubleshooting — on-site at business clients and public institutions (town hall: workstation security setup).

English Tutor

Self-employed — *December 2025 – May 2026*

Teaching English fundamentals - independent work management and rigor.

Pastry Seller

Merville Market — August 2026

Selling pastries at the market: welcoming and advising customers, running the stand, handling the cash register and change — people skills, rigor and teamwork.

EDUCATION

Engineering Degree – Computer Science and Telecommunications

Toulouse INP ENSEEIHT

Grande École engineering school in France

Specializations: **networks/telecom**, **cybersecurity**, **data science/AI**, **embedded systems**, **Cloud/DevOps**

Bachelor's Degree in Computer Science, Years 1 & 2

University of Toulouse, 2024-2026 – **Top 15%** in Year 1 and Year 2

Strong training in **algorithms**, **programming** (low-level), **OOP**, **mathematics**

French Baccalauréat (General) – Highest Honors

Lycée Saint-Exupéry, 2021-2024 — Specializations: Mathematics, Computer Science, Engineering Sciences

LANGUAGES & OTHER

Languages: French (Bilingual), English C1 (ELAO test), Spanish B1, Persian (native), German A1

Diplomas: BIA (Aeronautical Initiation Certificate), Physical Training Initiation Diploma
